

● ABOUT ME

Frontend Engineer with 3 years of commercial experience, specialising in React.js/ts development. I have experience in designing and implementing complex UI solutions: state management via Redux Toolkit, drag-and-drop file hierarchies, integration with REST API, CI/CD process configuration. I have worked in a team environment using Scrum and Kanban, and I pay attention to maintainable, scalable, and testable code.

● WORK EXPERIENCE

🏢 **Infrascale** – KYIV, UKRAINE

FRONTEND DEVELOPER – 08/2025 – 06/2026

Development and support of frontend functionality on React.js and TypeScript. Integration with REST API, optimisation of UI logic and application state management. Configuration and support of CI/CD pipelines (automation of frontend application build, testing, and deployment). Participation in code review and Agile (Scrum, Kanban) team development processes.

🏢 **OLIMP DIGITAL** – ZHYTOMYR, UKRAINE

FULL-STACK DEVELOPER – 04/2025 – 07/2025

Developed responsive React components for a global P2P cryptocurrency conversion platform, integrating them with Laravel- powered APIs and a MySQL database. Managed the state of components using React hooks (useState, useEffect), ensured smooth UX when entering data and making requests to the server.

🏢 **HEBRON SOFT** – ZHYTOMYR, UKRAINE

FRONTEND DEVELOPER – 08/2023 – 03/2025

Designed and implemented a state repository structure using Redux Toolkit for a startup with a Google Docs-style file system, including drag-and-drop subfolders and REST API consumption. Developed key business logic in React.js, which increased modularity and code reuse. Collaborated with the backend team on the design and consumption of REST endpoints, optimizing client-server interaction and implementing custom notifications for download status and errors. Mentored and coordinated a team of five developers under the direction of Team Lead; actively participated in sprint planning and daily stand-ups using Scrum and Kanban.

● EDUCATION AND TRAINING

09/2022 – 05/2024 Zhytomyr, Ukraine

TECHNICAL AND TECHNOLOGICAL DIRECTION Scientific Lyceum of Zhytomyr Polytechnic

Website <https://lyceum.ztu.edu.ua/>

08/2024 – 06/2025 Lviv, Ukraine

WEBUI (FRONTEND) Hebron IT Academy for Orphans

Website <https://hebron-academy.com/>

● LANGUAGE SKILLS

Mother tongue(s): **UKRAINIAN**

Other language(s): **ENGLISH B1+**

● SKILLS

Frontend: HTML, CSS, JavaScript, TypeScript, React, Redux Toolkit, Tailwind CSS, Bootstrap

Backend: PHP, Laravel, MySQL, REST API, CRUD

Tools & DevOps: Git, GitHub, Bitbucket, npm, Packagist, Postman, JSON, SQL, CI/CD

Process & Management: Agile, Scrum, Kanban, Jira
